

March 23, 2015

Thank you to the Liberal Party of Canada and some of your MPs for standing up for Canadian citizens and residents, whether born in the United States, in Canada or in any other country, against the American Foreign Account Tax Compliance Act (FATCA) Intergovernmental Agreement (IGA) enabling legislation.

You may be aware we have commenced litigation against the Government of Canada resulting from the Conservative government surrendering Canadian citizens, residents, laws, constitution and sovereignty to the United States for FATCA.

We are disappointed at your near silence since the FATCA enabling act was passed. We are, therefore, contacting you now to request the Liberal Party's policy in writing on what you would do if the Liberal Party is elected to form the next government.

Specifically, we ask:

1. Will your party commit to repealing the FATCA IGA in its entirety?
2. If not, why not?
3. What action will your party take to protect Canadian citizens and residents from the demands of a foreign government under FATCA?
4. What action will your party take to uphold Canadian laws, the constitution, the Charter of Rights and Freedoms and Canadian sovereignty as they relate to FATCA?
5. What action will your party take to agree with our lawsuit that the FATCA enabling Act violates the Charter of Rights and Freedoms and Canada's constitution? Will you direct the Ministry of Justice to quickly reach an acceptable settlement with us?
6. What action will your party take to ensure a foreign law does not prevail over Canadian privacy, human rights, banking and other laws?
7. What is your time frame for any commitment you may make?

Approximately one million Canadians, their families and business associates are affected by FATCA and many will want to know which party represents their needs and rights. Many will make their voting decision based on this.

We hope the Liberal Party will fight for their rights as Canadians.
